PROCESSING NOTE

Accessioned in 1983, this collection was originally titled the Rosenberg Library. Librarian records. It included records of both the Rosenberg Library and various outside committees on which the Librarian (John Hyatt) served.

In 1986, I removed the Library's records from this collection and transferred them to #79-0005 (Rosenberg Library records) along with additional files received from the Librarian's office earlier that year. #83-0048 now consisted of only non-Rosenberg Library material, so I renamed the collection the John D. Hyatt papers. The Provenance File contains a list of the Rosenberg Library records I transferred to 79-0005.

In 1992, I decided that the original title assigned to 83-0048 had been correct, since the records of the various outside committees had been generated while Hyatt served in his capacity as Librarian. However, I did not transfer back any of the Rosenberg Library's files which I had merged with 79-0005.
